

# Release Notes

## B Series, G Series Software Development Kit (SDK) SDK v2.0.44

### 1. Overview

The Intrusion Integration SDK (software development kit) facilitates the integration of Bosch intrusion control panels into third party applications. Developers use the SDK to add functionality to monitor and control Bosch intrusion control panels to their applications.

SDK v2.0.44 package provides integrators with the following:

1. Inclusion of SDK updates previously released in v2.0.36\_Service\_Pack\_1 and v2.0.36\_Service\_pack\_2.
2. An optional signed version of the SDK for integrators to use when required by higher security installations:
  - Signed version of the SDK will be located within the folder \%extract\_location%\SDKv2.0.44\SDK-sn

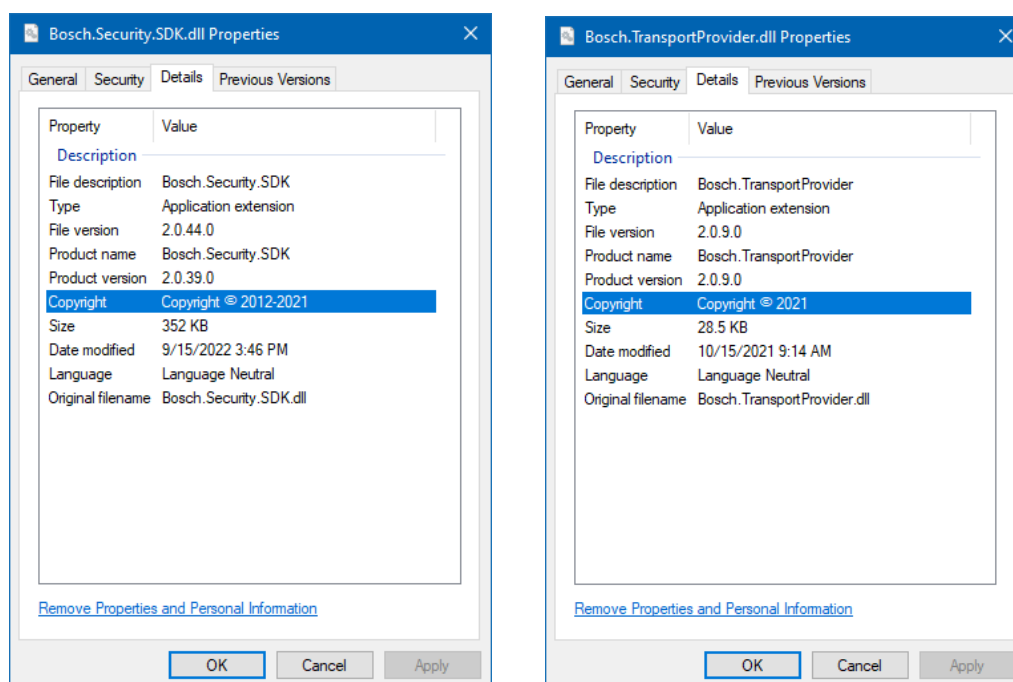

### 2. Installation

The SDK v2.0.44 is a full SDK package, containing all required files, help and samples resources.

Integrators that have already applied both v2.0.36\_SP1(v2.0.38) and v2.0.36\_SP2(v2.0.44) are already operating with the latest v2.0.44 release files and features. See Figure 1.0

Refer to Bosch SDK SP1 and SP2 release notes for respective Service Pack overview and installation details.
